1. (U) **SITUATION.** This Annex represents the consolidation of all ROE Serials, FRAGOs, and directives pertinent to Operation Iraqi Freedom. This information is critical to commanders and staff sections within MND-B. The Rules of Engagement will inform leaders and soldiers of their authorities and responsibilities and must be incorporated into every training scenario. These Rules of Engagement apply to MND-B military operations within the international boundaries of Iraq and to those Iraqi Army units TACON to MND-B until an Iraqi ROE is developed.

2. (U) **MISSION.** No change.

[REDACTED]

3. (U) EXECUTION. Change.

a. (U) GENERAL GUIDANCE

[REDACTED]

2) (U) MILITARY POLICY. Commanders have the inherent authority and obligation to use all necessary means available and to take all appropriate action in self-defense of their units and other US Forces and Coalition Forces and other designated protected persons and forces as defined in para. 3.g.4.

3) (U) At all times, the requirements of necessity and proportionality will form the basis of the judgment of the on-scene commander (OSC) or individual as to what constitutes an appropriate response in self-defense to a particular hostile act or demonstration of hostile intent.

4) (U) All personnel must ensure that, prior to any engagement, non-combatants and civilian structures are distinguished from proper military targets.

[REDACTED]

6) (U) Military operations will be conducted, in so far as possible, to ensure that incidental injury to civilians and collateral damage to civilian objects are minimized. Strikes on infrastructure, lines of communication and economic objects should, to the extent possible, disable and disrupt rather than destroy.

7) (U) Civilian structures, especially cultural and historic buildings, nonmilitary structures, civilian population centers, mosques and other religious places, hospitals and facilities displaying the red crescent or red cross, are protected structures and will not be attacked except when they are being used for military purposes. Targeting structures will be conducted in accordance with these ROE and the CDEM (Ref. D). US Forces will not utilize these protected structures for military purposes.

8) (U) The use of force to accomplish authorized missions will be necessary and proportional in order to comply with the law of armed conflict (LOAC). Proportional force is force that is reasonable in intensity, duration, and magnitude.

9) (U) These ROE give commanders the maximum flexibility to use the amount of force required to accomplish the mission. They represent all authority to use force that has been authorized by Commander MNF-I, CDRUSCENTCOM, and SECDEF. A commander must consider the assigned mission, the current situation, higher commander's intent and all other available guidance in determining the level of force required for mission accomplishment. The level of force employed should not exceed the force required to accomplish the assigned mission.

HOSTILE ACT

- You may engage an individual if you are reasonably certain (PID) they committed/are committing a hostile act
- **Hostile Act: an attack or use of force against US Forces, CF, ISF, US citizens, Iraqi civilians, and other designated persons and property**
- It is also force used directly to preclude or impede the mission and/or duties of US Forces
- Proportional response requires that you only use deadly force if you are threatened with death or serious bodily injury
- Can engage someone who has committed a hostile act unless they surrender and no longer pose a threat...you can engage someone running away after a hostile act or display of hostile intent

Exhibit 9

The Soldier pushed the LN away and told him to stop. The LN continued to run from the CF and SPC Innes fired 1 x 5.56mm warning shot. The LN continued to flee the scene and another member of the QRF fired 1 x 40mm (Non-lethal M203) round into the LN's lower abdomen. The LN continued to run and made his way into a dark alley where a large bus was parked. [REDACTED] ordered the LN to stop moving and visually identified something metallic in the LN's hand. [REDACTED] once again ordered the LN to stop when the LN raised his hand with the metallic object, [REDACTED] felt imminent danger and fired 1 x 5.56mm into the LN's chest. Contact was called to the CDR [REDACTED] and a medic was immediately dispatched to the scene to treat the LN for injuries. 6
