On 22 APR 06 at 0935 on R [REDACTED] at Grid [REDACTED] I was gunning the lead vehicle with [REDACTED] and [REDACTED] in the vehicle. When a white 4 door local national vehicle approached at 120m I used Stop Padlock to try to stop the vehicle and turn it around. The vehicle failed to stop at 100m I fired a red 40mm smoke round. The vehicle increased speed. At 60m I fired 1 5.56mm round into the front right tire. The vehicle did not stop. At 50m I fired one more 5.56mm round into the engine compartment [REDACTED] vehicle did not stop. At 40m I then fired one 5.56mm round into the drive side of the windshield and round hit the driver, the vehicle stopped. At 0938-0943 The Buffalo moved up to the vehicle. The medic dismounted. Creaked out the local national. The local national was in critical condition. Called for medical. We then ground extracted the local national to FOB Yusifiyah, where he was declared dead on arrival by B 1502 medic. We then returned to the site of the incident. The vehicle was not there. We returned back to FOB Yusifiyah where the uncle of the local national was. He then took us to the location of the vehicle so pictures could be taken. When we got to the vehicle the right front tire had been changed so we could not get a picture of the tire shot.

I, [redacted], WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:
On 22 Apr 2006, at around 0930, I began treatment of an Iraqi national with a gunshot wound to the face. The round hit the windshield of the vehicle, entered the national through the mouth, exited through his jaw about 1/2 an inch to the left of the entrance wound. And hit the rear passenger side window. When I had gotten to the national, he was unconscious, eyes open and not moving. I checked for a pulse and felt a strong one. I took him out the vehicle and began trying to position him so the blood would not go to the back of his throat. I had decided that he needed medical treatment immediately and needed to get to an actual facility. My security had brought me a litter, we got him on and put him on an FG-31. We headed for Yusfiah as I continued to check his pulse to make sure he wasn't dead. I continued to check for a pulse until we reached Yusfiah, then I had begun to prepare to get out. When we got there, the myself and three other soldiers did a 4-man litter carry into the medical Treatment facility. We set him on the litter stand and handed the national to the medics

there. The medics there put a pulse ox and got an O2 sat of 92 and a heart rate of 150 for a few seconds. The national's pulse stopped and the medic that checked for his breathing with a stethoscope said "I'm getting nothing." They declared him dead around 0955. The national was shot with 5.56. He had received 3 warning shots, the third one went through the windshield and hit him.

The Events that Transpired on the morning of the 23rd were as follows. A white vehicle approached us from the front of our convoy along route ... The Gunner in the lead truck (...), began waving off the car using hand and arm signals. He also had the driver honk the horn and he yelled stop! The vehicle continued along its course so he used an M203 smoke (red) round. He fired the round to the south side of the road. The vehicle actually stopped but sped back up; he then utilized his M-4 and fired disabling shots into the driver's side tire and then the engine (total of two shots). Still the vehicle persisted to approach the convoy. His next shot was to the windshield on the driver's side. This proved to be a fatal shot to the face of the driver.

Immediately the TC ... called back to me and informed me that a Local National had been shot and was severely injured. I (convoy commander) directed the medic to begin work on the injured LN. The medic informed me that he needed medevac. I directed the PSG ... to call in medevac while I notified 1st BN, 502nd IN Regiment. They would not respond to me, and ... informed me that we needed to take this LN to FOB YUSUFYAN for Medevac.
