LINE 6: Summary of incident: element moved to grid to set cordon for known IED. D11 and D12 moved to position on the East bound lane of Rt. D14 moved to there position on the North bound lane of Rt. R Cones and wire were set out about 200 meters standoff distance from the vehicles. D11 set cones on the West bound lane and wire on the East bound lane. All traffic was diverted to alternate routes. s off ramp to our East driving west bound about 30 MPH on the Dirt road parallel to Rt. tried yelling stop in Arabic and using hand and arm signals to get the driver of the truck to stop. The driver of the truck continued in our direction. After it was evident the truck driver was not making any attempt to stop. Took a warning shot. The truck driver still did not seem to make any attempt to stop the truck. At this point the truck became to great a threat to the soldiers in our element not to act. The Soldiers responded and opened fire on the truck. 1x/M240 B and 7 x M4/M16's opened fire on the truck, starting at the bumper on the driver side and working their way up the hood to the windshield into the driver until the truck came to a stop. Cease fire was called when the vehicle came to a stop. Assuming the truck was still a threat (possible VBIED) we waited until EOD arrived to assess the threat. IP's cleared the truck and they found the driver had been killed and the passenger in the truck was wounded and still alive. The wounded LN had sustained multiple bullet wounds including a head wound. He was responsive and talking. IP's brought the passenger back to our location and we started first aid. The IP's took the man to a local hospital.

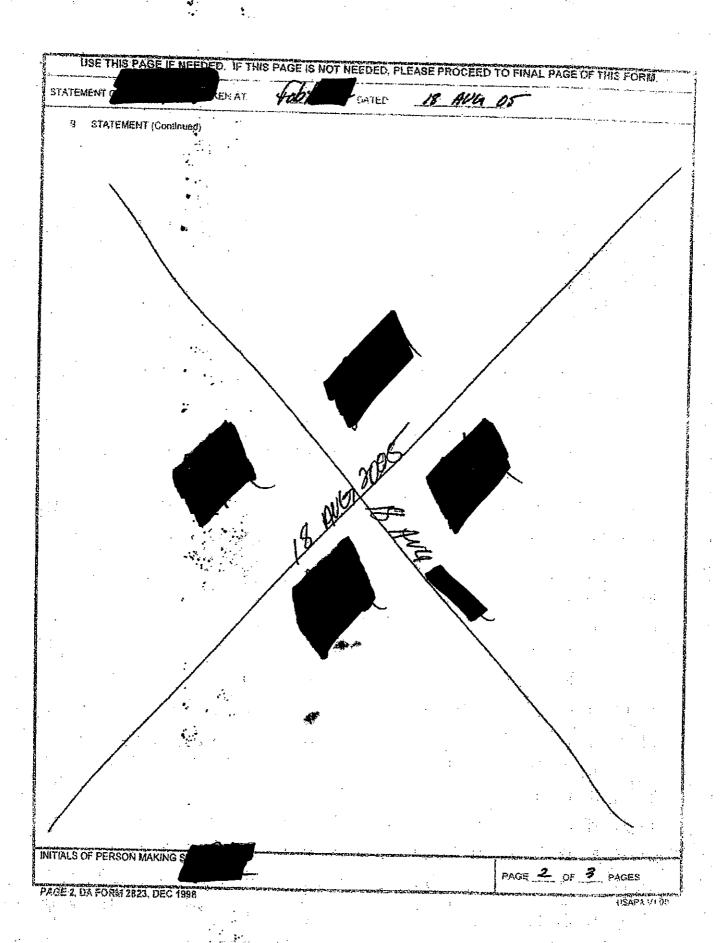

LINE 7: Damage to government and/or civilian property: 1 x LN killed, 1 x LN wounded, 1 x cargo truck with multiple bullet holes
