[Redacted] and [Redacted]

We will demonstrate how a TFC user can submit a SAR to the Common Box/Shared Space only or to the CB/SS and eGuardian.

1. Please join my meeting, Wednesday, February 08, 2012 at 3:00 PM Eastern Standard Time - 2:00 Central Standard Time

Sounds good. I followed up with [REDACTED] and he indicated he is looking for some detailed documentation regarding how your proposing to change the system as well.

Lets plan a call and talk it all through.

We have some availability on Mon or Wed next week?

Hi [REDACTED]

Thanks for your message. Hope things are better for you now. I am currently in Memphis since we are doing a project with Shelby County.

In terms of the NSI Upgrade, I would suggest that we have a call, discussion and demo on what this upgrade does. There are some policy impacts and I want to make sure that you and your team are aware of this and let us know what you want us to do. This demo will also help you and your team understand the upgrade and how this will also help you as we add more functionality

I would also like to see if we could meet sometime so that I can talk to you about the other items that we discussed when we met at the Southern Shield meeting.

Thanks

Good morning [REDACTED]

b(6)

I hope you are doing well.

I wanted to reach back out to you, as I am working to catch up after being out a good deal of January.

I recall some email exchanges between you and [REDACTED] in the past month.

Did they pertain to what you wanted to discuss with me and demonstrate, or is this something different?

Should we still talk or are you working with [REDACTED] on these topics already?

Best Regards,

[REDACTED]

Subject: NSI Gadget Upgrade

Hi [REDACTED]

Hope this finds you well. Recently, we have completed an upgrade for the TN Fusion Center. This upgrade involves the use of a local gadget that will allow the Fusion Center Analysts to push SARs to eGuardian locally and also to view the SARs in the TN Shared Space (Common Box). It will also require the Analysts to identify a reason when the Fusion Center decides not to send a SAR to eGuardian. Additionally, this allows the Fusion Center to push the SARs to eGuardian within 30-45 minutes of the decision to push.

I wanted to reach out and see if any of your Analysts had any additional questions or needed to see a demo of how this works. If you do, please get back to me and we can set up a demo where they can see how this works and our team can answer any questions that they have.

Hope you have a great Holiday season

Thanks,

[REDACTED]
