Wednesday, 3/10/04:

@1920: Called by DAG while at restaurant with wife and daughter. He is at AG's hospital with Goldsmith and Philbin. Tells me Card and J. Gonzales are on the way to hospital to see the AG, but that AG is in no condition to see them, much less make decision to authorize continuation of the program. Asks me to come to AG's hospital to witness condition of AG.

@1940: At hospital. Card and J. Gonzales have come and gone. Comey tells me that they saw the AG and were told by the AG that he was in no condition to decide issues, and that Comey was the Acting AG. All matters were to be taken to him, but that he supported the Acting AG's position. The AG then reviewed for them the legal concerns relating to the program. The AG also told them that he was barred from obtaining the advice he needed on the program by the strict compartmentalization rules of the WH. Comey asked me to meet briefly with the AG to see his condition. He also asked that I inform the detail that no visitors, other than family, were to be allowed to see the AG without my consent. (I so informed the detail.)
