MAJOR CASE 188

Synopsis: Documentation of CIRG/NCAVC mission statement for services being provided on-site at GTMO.

Reference: 265A-MM-C99102 Serial 184

Details: The NCAVC was directed to coordinate behavioral resources for the FBI as indicated in referenced communication. An NCAVC/BAU on-site assessment and subsequent report was provided to FBIHQ, Miami Division, and GTMO. As a result of this assessment, the NCAVC was requested by GTMO management to provide on-site assistance to the interview process. The NCAVC currently is rotating two SSAs every 45 days to assist with the interview process concerning the detainees housed at GTMO.

The specific mission of the NCAVC at GTMO focuses on preparing the interview teams from the FBI, CITF, DHS, and the CTC with a comprehensive behavioral based approach to the interviews of the detainees. This approach includes the training of the various interview components in the development and implementation of interview strategies, review of case specific information to include file jackets, consultations with the interview teams preparing for detainee interviews, and the observation of interviews for feedback to the interviewing teams.
