These recommendations are also based upon the prediction that the operations at GIMD regarding the processing, interviewing, and securing of the Taliban/Al Qaeda information represents a long-term, if not permanent, project of the U.S. Government. If additional information from other sources regarding operations at GIMD is received at a later date, it should be determined that the GIMD operations are simply a short-term solution, then the contents of this report may be subject to modification or change.
