Dear Mr. Battle,

[redacted] and I are responding to the email sent to the NCAVC by [redacted] dated 3/27/03. This Email contained two ECs written by SSA [redacted] dated 3/25/03. The main EC has been sent to both the Miami Division and Counterterrorism.

b7C -1

Let me preface this Email by saying that although [redacted] is not currently in GTMO, we have discussed the contents of this at length and she shares the same concerns and questions on which I will elucidate shortly. We have sent this Email to every BAU SSA who spent their required time in GTMO because they will be in a position to understand what issues we are addressing. We also understand that there may be those that do not agree in part or in whole with our opinions. However, since we were "in the box" when these ECs came out, the task then of responding to them has fallen squarely on our shoulders.

My time down here will be shortly coming to an end and although [redacted] is gone, she spent the majority of her required 45 days on the ground in GTMO. We feel that our tenure here has now placed us into a much better position from which to provide some insight into the 3/25/03 EC. [redacted]
